INSTALLATION GUIDE

# How to install RANI iQ SPA

Front: fit the device. Back: set up the spa in the app.

RANI iQ

BEFORE YOU START · CHECK TWO THINGS

## A Wi-Fi at the spa

- Stand at the spa: at least 2 bars of Wi-Fi signal.
- Too weak? Set up a Wi-Fi extender first.

## B Get the RANI iQ SPA app

Search for “RANI iQ SPA” in the App Store.

PART 1

# Fit RANI iQ SPA in the spa’s control box

## 1 Switch off the power

Switch off the power to the spa completely at the fuse board.

## 2 Open the Balboa box

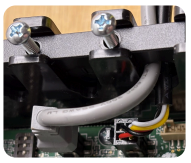

Remove the 2 screws at the top of the control box.

## 3 Connect the cable

Plug RANI iQ SPA into one of the two sockets. The plug only fits one way.

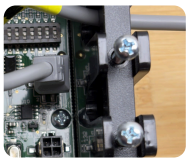

## 4 Secure the cable correctly

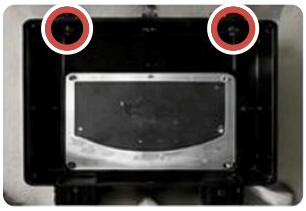

Unscrew the strain relief

Place the cable behind it

Screw it back on

## 5 Close the Balboa box

Put the lid back on, and tighten the 2 screws at the top.

## 6 Position the device

Just below the acrylic rim, above doors and panels, so the antenna is above the water.

## 7 Switch the spa back on

Switch the power back on at the fuse board.

NEXT: PART 2

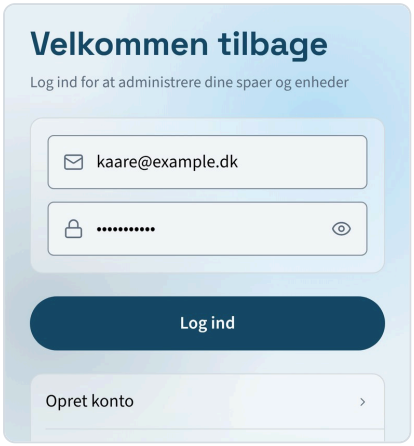

**Turn the sheet over, and set up the spa in the app**

→

PART 2

# Set up RANI iQ SPA in the app

The app guides you through 6 steps. Here is what you will see along the way.

## 1 Open the app and log in

Log in, or tap “Create account” if you are new.

## 2 Create your spa

Give the spa a name, and enter its address (“About your spa”).

ⓘ Used only for electricity prices and energy optimisation. Never shared.

## 3 Adopt device

Choose “Adopt device”. The app guides you securely through the rest.

## 4 Scan the QR code

Scan the private QR code on RANI iQ SPA (“Scan private QR”).

ⓘ The public label does not give access to change Wi-Fi.

## 5 Choose Wi-Fi and enter the password

Then tap “Save WiFi securely”.

ⓘ Choose a 2.4 GHz network.

## 6 Your spa is ready

- ✓ Close the spa’s outer doors.
- ✓ Optionally connect Blue Connect under Water.
- ✓ Follow your energy use under Energy.
